AQUAVITA

MIX BRUSH

Stain system for easy and quick preparation of selected color shades

Easy preparation

1. Select a color shade from the **AQUAVITA MIX Brush color card**.
2. Select the right **AQUAVITA color concentrate** and **AQUAVITA Top Coat Brush base C-LM**.
3. Shake the concentrate.
4. Mix the total amount of the concentrate (0.2L) with the Aquavita Top Coat Brush base C-LM (5kg).
5. Stir well.

AQUAVITA

AQUAVITA

AQUAVITA

AQUAVITA MIX BRUSH consists of:

AQUAVITA
color
concentrates

AQUAVITA color concentrates are prepared in color shades according to the AQUAVITA Mix Brush color card and are used for the preparation of AQUAVITA Top Coat Brush color shades.

AQUAVITA
Top Coat Brush
base C-LM

AQUAVITA Top Coat Brush base C-LM is a transparent base which is mixed with the selected color concentrate from the AQUAVITA Brush MIX color card.

color card

Before applying the AQUAVITA Top Coat Brush to the surfaces on and around the house, we recommend using the AQUAVITA Impregnant Extra biocide impregnation that protects wood against blue stains, rot and insects (it meets the requirements of the EU Biocides Regulation).

The AQUAVITA stain system boasts excellent resistance to different weather conditions and easy repainting properties.

The prepared **AQUAVITA Top Coat Brush** product provides a transparent protection of elements on the house and around it and emphasizes the structure of wood, giving a natural appearance of wooden surfaces.
